

**YOUR SOURCE FOR QUALITY AIR ACCESSORIES!**

## s99230 TRUCK AIR SEAT BLO-GUN KIT

- Keep your truck cab clean!
- Easy to install!
- Simple to Operate!
- No maintenance required!

- The s99230 KIT contains the following components:**
- Lever Handle Blo-Gun with OSHA Safety and Rubber Tips
  - 1/4" Push-to-Connect "Tee" Connector & 1/4" FNPT Union
  - 12 FT RE-KOIL Hose with 1/4" MNPT swivels on both ends
  - Maximum Working Pressure: 100 PSI

### EASY INSTALLATION INSTRUCTIONS

- Locate 1/4" ID air supply line beneath the driver's seat.
- Remove the black 1/4" Push-to-Connect Tee from the kit and splice the Tee into the air supply line.
- Slip one end of the air line into one end of the Tee.
- Slip the other end of the air line into the other end of the Tee.
- Screw the 1/4" female adapter to the threaded end of the Tee.
- Screw the 1/4" male swivel on the end of the yellow 12 ft coil hose into the female adapter.
- Screw the air blow gun to the other male swivel on the end of the yellow 12 ft coil hose.
- Tighten all connections. **DON'T OVER DO IT!**
- Secure one of the two tips provided to the blo-gun. The rubber tip produces a high pressure stream of air. The brass tip is a safety tip producing a reduced volume of air with a wider pattern. Keep the unused tip in a convenient storage area.

**That's it!**

**Thank You for choosing the Milton Truck Air Seat Blo-Gun Kit.**
